

Stack Method Worksheet

How to use:

- Use your list of debts from the Know What You Worksheet and order your debts by interest rate (highest to lowest)
- Write down how much extra you can afford to put towards your debt each month (this is above the required minimum payments)
- Add that extra payment to the first debt (the one with the highest interest rate).
- Revisit this list every time you pay off a debt or if you are able to put more towards your debt each month.

How much extra can you afford each month?				\$	
Company/Creditor	Current Balance	Interest Rate	Minimum Monthly Payment	Extra Payment	Total Payment

Let's bank on each other.
