To get started, visit aplusfcu.org/join, then click 'open your account'. A Membership Savings Account is required and opened by default. To add a share, choose the type of account you'd like to open, then review the options by scrolling down or using the filter. Once your account is open, you can add additional shares.

Now, enter your contact information, then select one of the member eligibility options. If you don't qualify due to an affiliation to a person or organization, you can join by making a one-time donation of \$10 to help fund grants for educators.

Next, choose how you'd like to fund your account. Connect your bank to make a higher initial deposit or provide your bank or debit card information for deposits less than \$500.

Enter the amount you'd like to deposit to the selected share. Since you need to keep a minimum of \$10 in your savings account, that'll be added automatically.

Review the information you entered along with the legal agreements, and certify each statement is correct by checking its box. And don't forget to enter a promo or refer code if you have one!
